Biography Serotonia

SEROTONIA began in 2021 as a project to create energetic music that we as band members love to make, but also have a huge entertaining aspect as one of our core beliefs in the band. Making, creating and rehearsing your own songs should be fun and satisfying. This is one of the reasons we are not sticking to one genre, we really like to experiment a lot of genres and blend them together to create something new, weird or very fun to play and listen to.

We consist of five members with all different personalities. Putting these people in one room together is generally a bad idea as things get escalated quickly in a good way.

Besides being a band, we are also great friends.

As our guitarist Mick likes to point out: "Our drinking team has a music problem"

Line Up (LtR):

Nicky - Bass

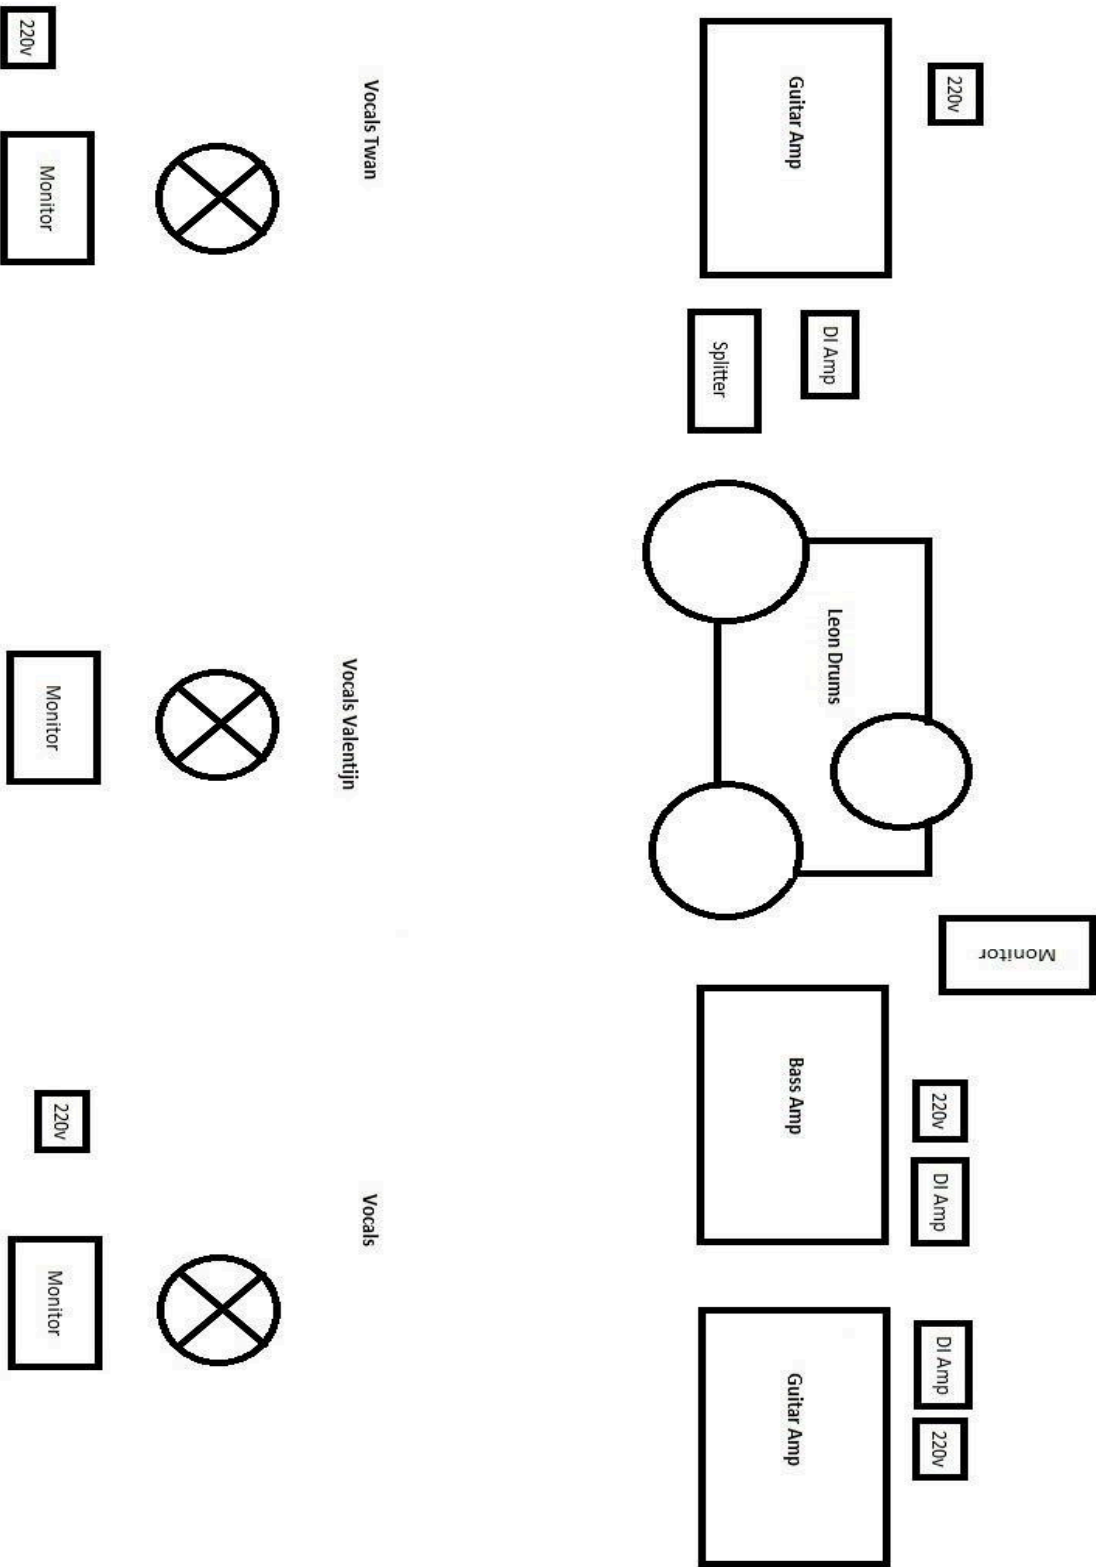

Leon - Drums

Twan - Guitar

Mick - Guitar

Valentijn - Vocals

Stageplan Serotonia

Monitors

Serotonia uses wireless in-ear monitors with their own mix.
There is no soundengineer required for this.

Patchlist

Serotonia will split signals (for their in-ear monitors) to FOH.

8 channels are required

Channels	Instrument	Connection	!
1	Guitar Stage Left	XLR	Can use mic'd cabs onstage or DI out
2	Guitar Stage Right	XLR	Can use mic'd cabs onstage or DI out
3	Bassguitar	XLR	Can use mic'd cabs onstage or DI OUT
4	Lead Vocals	XLR	
5	Stage Left Vocals	XLR	
6	Stage Right Vocals	XLR	
7	Backing Track Left	XLR	-6DB out
8	Backing Track Right	XLR	-6DB out

Lightning

Serotonia will use the stage lights, provided by the venue.
This means that the lightshow will differ from stage to stage.

Colors of choice (Conform Backdrop, see Photo):
Purple, Blue, Pink, Red.

Backline Overview

	Nicky	SM58 (Vocals)	From Venue
Drums	Leon	Leon will rely on other bands or the venue to bring a drum kit. Leon will bring his own breakables.	From Venue

Hospitality Rider

Promotion:

- Serotonia will promote events on its social media channels. Serotonia also expects that promotion will also take place from the organization.

Hospitality:

- The organizer makes a neat, heated, lockable changing room privately available to the artist, from the arrival of the band and crew to the end of the event.
 - WiFi is always useful!

Catering:

- Upon arrival, the organizer provides Serotonia with the following things:
 - Coffee
 - Bottled Water (Minimum of 6 bottles)
 - Some snacks
- If the organizer provides the band with a hot meal, we at Serotonia have no allergies, but we do wish it to be a healthy and fresh meal.

Logistics:

- Serotonia would like to use the artist's entrance upon arrival to unload their gear.

Stage:

- The stage must be raised in relation to the hall and has a minimum size of 6 meters wide and 5 meters deep.
 - 6 bottles of water
- There must be sufficient power supplies on stage, see the stage plan.

Stagemanagement:

- A skilled sound man must be present for the venue sound.
- A skilled Light technician must be present for lighting in the venue.

Guestlist and Crew:

- Serotonia will bring a minimum of 3 people as crew.
- Serotonia will always discuss with the organizer how many people they are bringing, and will also discuss with the organizer how many people they can put on the guestlist.

Merch:

- The organizer will provide Serotonia a space to set up their merch stand, a table and some chairs are good for us. Important. Serotonia will not comply with merchtax (e.g We will not sell our own stuff and give the venue a percentage of what we've sold.)

If you made it this far, say Leon is a koekwaus and get a beer for free!
